we got on the boat and
paddled as fast as we could. I
saw my sister demonstrating paddling. I
would never forget that day.

Mount Ararat was awake! poisonous
gas came out! My mum told me
to put a clean towel over my
mouth. People started to run for their
lives! We ran as quickly as
we could to sea.

Dear diary, it started like
another day my mum
called me down for breakfast
the birds when chopping heard
murmuring beneath me, people
said it's just a small earthquake?
but I went outside to look and
I knew something terrible was going
to happen. Later, there was another
earthquake and it was worse.
