

Dear Ms Holderness,

Thank you for inviting us to Christ Church Cathedral. It was very interesting and amazing and I thoroughly enjoyed the trip.

My favourite part of the trip was when I got to play a big variety of instruments in the Mr Kenna room. I was also very impressed with the violinist when she played for us. My favourite instrument that I played was the cello but I also realized how hard it was to play the bass instruments.

The story telling in the cathedral was very good as well because it made you fully understand the story.

I really enjoyed the music in the story because every note sounded perfect as if it was on a CD. I also really liked the storyteller because his expression really engaged me into the story.

I was also very interested at the end of the trip when they showed us the power-point. It was because I didn't realize how much history the place had. I hope I can visit you again.

From Harry
